PROFESSIONAL SUMMARY

Highly skilled **Integration Software Engineer** with **5.5 years of progressive experience** in designing, developing, and optimizing complex **middleware and API solutions**. Specializes in **IBM App Connect Enterprise (ACE/IIB v11/v12)**, **IBM MQ**, and **IBM API Connect (IBM Cloud Pak for Integration)**. Proven track record in **technical coordination** of critical migration projects, with hands-on experience in **containerization (Docker)**, **CI/CD automation (GitLab CI/CD, ArgoCD)**, and implementing robust **API security measures**. Delivers high-performance integration solutions for diverse enterprise clients, including TIM, Bradesco, SEBRAE, and Porto Seguro.

PROFESSIONAL EXPERIENCE

Icaro Tech | São Paulo, Brazil
App Connect Developer | July 2021 – Present

- **Coordinated the technical organization and execution of a critical migration project** from **IBM App Connect v11 to v12** on a new **OpenShift** environment (since Jan 2025), leveraging **IBM Cloud Pak for Integration**.
- Designed and implemented **CI/CD pipelines** using **GitLab CI/CD** integrated with OpenShift and configured **ArgoCD** for automated deployments, **streamlining the deployment process**.
- Managed **Dockerfiles** for Integration Runtimes generation and implemented **PVCs (Persistent Volume Claims)** for data persistence within OpenShift pods.
- Actively involved in **OpenShift environment configuration**, specifically managing **Deployments, Pods, and Services** for IBM MQ, App Connect, and API Connect components.
- Provided **technical guidance to the integration team** on development practices, troubleshooting efforts, and adoption of new technologies.
- Developed and maintained **RESTful and SOAP APIs** for secure data transfer, implementing robust security measures like **LDAP authentication, OAuth, SSL Certificates, Public/Private Keys, and API Gateway security policies**.
- Proactively **monitored and optimized middleware performance**, integrating **Log4j2** for enhanced logging with **Kibana/ElasticSearch** for comprehensive log analysis, which **improved troubleshooting capabilities**.
- Designed, developed, tested, and deployed complex middleware integration solutions using **IBM App Connect Enterprise (ACE/IIB)** and **IBM MQ** for critical telecommunications projects.

- Collaborated closely with cross-functional teams to translate intricate business requirements into precise technical specifications and architectural designs.
- Participated actively in the full Software Development Life Cycle (SDLC), including code reviews and build automation.
- **Key Achievements (since Jan 2025):** Ensured client compliance with IBM official support, achieved significant **performance gains** in integration flows, improved **Git-based version control**, streamlined **deployment processes**, enhanced **troubleshooting capabilities**, and successfully refactored/removed legacy content.

VILT | São Paulo, Brazil

Java Developer | February 2020 – June 2021

- Engineered and implemented high-performance **backend solutions** for a sales portal, significantly improving access to services and user experience.
- Performed comprehensive **documentation and architectural analysis** of legacy functions, contributing to modernization efforts.
- Provided critical **production support** by diagnosing and resolving complex bugs and efficiently handling service requests, ensuring high system availability.

FIEC (Internship) | Indaiatuba, Brazil

Programming Intern | February 2019 – January 2020

- Developed and maintained a personal project for organizing a coworking space, overseeing its operation and user feedback for 1 year.

TECHNICAL SKILLS

- **Middleware & Integration:** IBM App Connect Enterprise (ACE/IIB v11/v12), IBM MQ, IBM API Connect, **IBM Cloud Pak for Integration**, Enterprise Integration Patterns, RESTful/SOAP APIs, Microservices Architecture, SOA.
 - **Cloud & DevOps:** **OpenShift**, Docker, Kubernetes Concepts, GitLab CI/CD, ArgoCD, CI/CD Pipelines, Automated Deployments, YAML.
 - **Security in Integrations:** API Gateway Security Policies, SSL Certificates, OAuth, Public/Private Keys, LDAP Authentication.
 - **Programming Languages:** Java, IBM ESQL, SQL.
 - **Databases:** Oracle, SQL Server, MySQL.
 - **Monitoring & Logging:** Kibana, Elasticsearch, Log4j2, Performance Monitoring & Troubleshooting.
 - **Operating Systems:** Windows Server, Unix/Linux (Basic/Intermediate Command-Line).
 - **Tools & Methodologies:** Maven, Scrum, JIRA, Confluence, Source Control Management (GitLab, Git/SVN), Testing.
-

EDUCATION FIEC | Indaiatuba, Brazil Computer Technician | 2018 – 2019
